Jesus Rode a Donkey: Why Millions of Christians Are Democrats, 4th Edition, Released June 1, 2016

Ground-breaking book provides new perspective on the contentious 2016 election. Award-winning author Linda Seger's latest edition of Jesus Rode a Donkey explores what it means to be a Christian and a Democrat and gives readers new tools to make informed voting decisions.

Linda Seger, Th.D., one of the world's best known script consultants and author of multiple professional books, released her newly revised book, *Jesus Rode a Donkey: Why Millions of Christians are Democrats*, 4th Edition, on June 1, 2016.

Seger begins with simple, but riveting questions: If Jesus were alive today, would he feed the poor, or give tax breaks to the super rich? Would he comfort the old and infirm—or cut Social Security? Would he embrace a national policy of making war, or making peace?

In this latest edition, readers are given a fresh perspective on the 2016 political arena. JRD offers voters a new viewpoint on politics and spirituality, articulating how Christian values are often used to inform political decisions. Seger maps out clear differences between the

Democratic and Republican parties on key issues and between the candidates' value systems.

The author reveals there is, in fact, a close relationship between Democratic policy and Jesus' teachings. The idea that America's real Christians vote strictly Republican crumbles as readers peruse Linda Seger's careful study of both parties' platforms. ***Jesus Rode a Donkey*** reminds the reader that Jesus and the prophets had a radical, progressive message that calls individuals and nations to feed the hungry, help the poor, heal the sick, free the oppressed, and to love our enemies.

Seger explains "we owe it to ourselves to think more deeply as well as to bring our understanding of scripture, our faith, and our theology to the way we vote and the stands we take. We need to become thought-leaders in our communities, rather than just thought-followers."

Dr. Seger, a dynamic speaker who has presented seminars in over thirty countries as well as multiple locations around the U.S., will be giving talks as a guest of both religious and secular organizations. She has been a guest on numerous radio and television shows internationally, including CNN, Good Morning New York, Good Morning Los Angeles, the O'Reilly Report, and All Things Considered. She has also been quoted by the Wall Street Journal and the Christian Science Monitor. Her book launch will include a Twitter campaign designed to counter-balance the usually aggressive attacks aimed across the political aisle.
